830 SERIES CHAIRS

Designing for **Accessibility and Safety**

Changing Patient and Healthcare Demographics

There are a number of factors that led MTI to design ADA Compliant accessibility and safety standards into its newest products. Amongst those are the high percentage of people with mobility disabilities, the obesity percentage among U.S. adults, the average age of patients continuing to rise, and the high percentage of healthcare worker injuries.

MTI's ADA Compliant accessible chairs and tables can help reduce patient and healthcare worker injury and distress to achieve a true patient and healthcare worker centered design. They also help reduce liability issues and increase patient satisfaction and employee retention using the newest technology and quality standards.

MTI's ADA Compliant chairs and tables meet the **17"-19" entry height** and all other ADA requirements.

Of people with a disability have a mobility disability¹

Of US adults are obese²

1 out of 5

Of all injuries reported in the US is healthcare related³

Healthcare workers are almost 3 times more likely to suffer from a work-related injury than construction workers³

The Americans with Disabilities Act of 1990

The Americans with Disabilities Act of 1990 (ADA) and Section 504 of the Rehabilitation Act of 1973 are federal civil rights laws that prohibit discrimination against individuals with disabilities in every-day activities. In 2010, Section 510 was added to the Rehabilitation Act of 1973 that requires the Access Board to issue standards for medical, dental and ophthalmic diagnostic equipment to ensure such equipment is accessible to, and usable by, individuals with disabilities.⁴

In 2017, the U.S. Access Board added part 1195 to title 36 of the Code of Federal Regulations as a published document in the Federal Register to meet the requirements of Section 510 of the Rehabilitation Act of 1973 for an ADA Compliant chair and table⁴. Two of the key components to this regulation are the entry height of 17"-19" and a patient transfer support, with which MTI's ADA Compliant chairs and tables comply.

Transfer *Supports*

MTI's Transfer Support is ambidextrous, rotates 180 degrees, and meets all ADA requirements.

SmartTech™

The MTI 829 and 830 Procedure Chairs in any base version (standard, swivel or mobile) are ADA Compliant. Meeting all ADA requirements, the 830 Series provide easy patient ingress/egress and equal access for patients and caregivers with disabilities.

The 830 series power lift, back, tilt, foot, and 17.5cm automatic power foot extension functions provide superior patient positioning and comfort. To meet user requirements, the 829 is a 56cm wide version and the 830 is a 63.5cm wide version.

ADA

Compliant with All ADA Regulations⁵

Controls

Hand and Foot Controls with Sealed Membrane for Cleaning and Disinfecting

Extension

Power Footrest Extends Automatically for Taller Patients

Hassle Free

Maintenance-Free Joints. No Lubricating Pivot Joints... EVER!

Hibernate

After 60 Minutes Chair Sleeps to Save Energy

Home

ADA Compliant Home and Programmable Home Positions

Memory

4 Dynamic User-Programmable Buttons

Movement

Removable Slide Back Patient Arms Compensate with Backrest Movement (optional)

Safety

Smart Safety™ Technology Helps Keep the Chair in Safe Positions

Soft Start

Technology Providing Smooth Start and Stop Movements

Speed

Ultra Quiet Low Voltage DC Motors Provide Speed and Power

Swivel

Auto-Lock and Lock/Unlock Electronic Swivel Settings (optional)

Universal

Universal power supply for 100-240 volt applications

Upholstery

Quick Installation and Removable for Easy Cleaning and Replacement

⁵Complies w/regulation 36 CFR Part 1195 Standards for Accessible Medical Diagnostic Equipment and 2010 ADA Standards for Accessible Design. 829/830 are listed to the following standards IEC 60601-1:2005 Ed.3+A1;C1:2014, AAMI ES60601-1:2005+A1, CSA C22.2#60601-1:2014 Ed.3, IEC 60601-1-2:2014 Ed.4

ComfortSync™

The 830 Series ComfortSync™ provides a smooth and independent 17.5cm automatic power extension of the footrest as it follows the natural relationship of the patient's leg, also accommodating taller patients.

Low Voltage Motors: power lift, back, tilt, foot, and 17.5cm foot extension featuring ComfortSync™

Height: 48cm-99cm⁶

Length: 185cm plus an additional 17.5cm headrest extension

Width: model 830 is 63.5cm and the 829 is 56cm

Backrest: tapered

Patient Load Capacity: 325 kg

Controls: foot & hand

Programmable Buttons: 4 dynamic user-programmable buttons

Home Button: ADA Compliant home and user-programmable home positions

Headrest: oval articulating

Leveling Glides: built-in

G2 Accessories: plug and play accessories

Patents: 10632037, 7862123, 8480172, 9125495, 9782319 and/or 10898402, Additional Patents Pending

⁶Varies by base style

Ultra quiet DC motors are 30% faster and at 325 kg rating, the 830 Series have an unmatched patient rating capacity.

Hand and Foot controls with sealed membrane for easy cleaning and disinfecting.

The soft and sleek design defines luxury and provides superior patient access.

ADA Compliant 48cm entry height with 17.5cm automatic power footrest extension and extend/retract buttons for independent movements.
